Panel topics of the 5 Pavilions

< MTL > connect: Digital Week

PAVILION	PANEL 1	PANEL 2	PANEL 3
----------	---------	---------	---------

HEALTH	The future of health with precision medicine: CRISPR, the genetic profile, etc.	IoT, wearables and sensors in health.	
--------	---	---------------------------------------	--

ARTIFICIAL INTELLIGENCE	How to fill the skills gap in the workforce during a period of accelerated technological change?	How to facilitate the transition of MVP AI projects to production in organizations?	AI, a black box? Today, AI models are difficult to interpret. How can we explain decisions (legal, banking, insurance) resulting from techniques such as Deep Learning?
-------------------------	--	---	--

ARCHITECTURE AND CONSTRUCTION	Contribution of 4.0 to construction and infrastructure: BIM, CIM, IoT, etc.	AI and architecture, the power of data.	
-------------------------------	---	---	--

<p>CREATIVE INDUSTRIES</p>	<p>Fashion Tech: Smart fabric and mega-data ready-to-wear!</p>	<p>The development and training of talents in the era of globalization.</p>	<p>How to address the onslaught on intellectual property with the "Deep Fake" (false hyper-realistic content) and its spread?</p>
-----------------------------------	--	---	---

<p>MOBILITY</p>	<p>How vehicle-to-vehicle (V2V) and vehicle-to-infrastructure (V2I) technologies can improve our mobility and reduce congestion?</p>	<p>AI, Sustainable development, the circular economy and the future of mobility.</p>
------------------------	--	--
